## **VISION :**

To foster an inclusive and vibrant campus community where students actively engage in diverse extracurricular activities, honing their skills, cultivating a spirit of collaboration, and nurturing a holistic development that goes beyond the boundaries of academics.

## **MISSION :**

Empower students through specialized clubs to cultivate skills, leadership, and a sense of social responsibility. We strive to provide a holistic platform where innovation, expression, and community engagement converge, shaping well-rounded individuals ready to impact the world positively.

## **HISTORY :**

The Student Activity Center (SAC) was established in year 2013 and running successfully since last 12 academic years. At present, there are 9 numbers of club under SAC that are NCC, NSS, G&S, TC, LC, HC, MDF, PMC and Disco. SAC is the nerve center of the institute which strongly supports for cocurricular and extra-curricular activities. SAC students participated at State and National level reputed institutions and showcased their talents on various platforms.

## **BEST PRACTICES AT SAC**

### **1. Diverse Program Offerings:**

Ensure a wide range of programs and activities that cater to diverse interests and skills. This could include technical workshops, hackathons, cultural events, sports competitions, and leadership development programs. A variety of offerings encourages participation from students with different backgrounds and interests.

### **2. Student Involvement and Leadership:**

Foster a culture of student involvement and leadership within the activity center. Encourage students to take on leadership roles, organize events, and contribute ideas. This not only enhances their organizational and managerial skills but also ensures that the activities are tailored to the interests of the student body.

### **3. Collaboration and Interdisciplinary Activities:**

Promote collaboration between different engineering disciplines and departments. Organize interdisciplinary events, projects, and competitions to encourage students to work together on projects that integrate various engineering skills. This approach mirrors real-world scenarios and fosters a holistic learning experience.

### **4. Industry Engagement:**

Facilitate interactions with industry professionals through seminars, workshops, and networking events. Connecting students with industry leaders provides valuable insights into current trends, challenges, and opportunities in the engineering field. It also helps students build a network that can be beneficial for internships and future career opportunities.

### **5. Effective Communication and Marketing:**

Implement a robust communication strategy to keep students informed about upcoming activities and opportunities. Utilize social media, posters, newsletters, and other communication channels to reach a wider audience. Clear and consistent communication enhances participation and ensures that students are aware of the benefits and learning opportunities available through the activity center.

## OUTCOMES OF SAC

### **1. Enhanced Skill Development:**

Students actively participating in the activity center are likely to develop a wide range of skills, including leadership, teamwork, communication, problem-solving, and project management. These skills are valuable not only during their time at the college but also in their future professional endeavors.

### **2. Increased Engagement and Retention:**

A vibrant activity center contributes to higher student engagement, leading to increased satisfaction and retention rates. Students who feel connected to their academic community are more likely to stay motivated and complete their engineering programs successfully.

### **3. Holistic Learning Experience:**

By offering diverse programs and activities, the activity center contributes to a holistic learning experience. Students gain exposure to various aspects of engineering, beyond their academic curriculum, preparing them for the multifaceted challenges they may encounter in their careers.

### **4. Networking Opportunities:**

The interaction with industry professionals and alumni through the activity center creates valuable networking opportunities for students. These connections can lead to internships, mentorships, and potential job placements, strengthening the bridge between academia and industry.

### **5. Positive College Culture and Reputation:**

A well-managed student activity center contributes to a positive college culture. This not only enhances the overall college experience for students but also positively influences the college's reputation. A vibrant activity center can attract prospective students and create a sense of pride among current and former students.
