The objective of this Scopus indexed 4th International Conference on Computer & Communication Technologies (IC3T) 2022 is to present a unified platform for advanced and multi-disciplinary research towards design of smart computing, information systems, electronic systems. The theme focuses on various innovation paradigms in system knowledge, intelligence and sustainability that may be applied to provide realistic solution to variegated problems in society, environment and industries. The scope is also extended towards deployment of emerging computational and knowledge transfer approaches, optimizing solutions in a variety of disciplines of Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering, Electronics and Instrumentation Engineering. The conference proceedings aim to publish unpublished work pertaining to the topics mentioned below. The conference is scheduled to be held on July 29th & 30th, 2022 at Kakatiya Institute of Technology & Science (KITSW), Warangal, Telangana, India
