DRIVE DYNAMOS

Technical Club-KITSW & ISTE Student Chapter has organized a one of the central events "**DRIVE DYNAMOS**", for Sumshodhini'24. With the dynamically changing hiring patterns by the big tech companies, addressing the real time problems and making sure the solutions could have a chance of being widely adapted, interview skills have been the most searched things over the Internet and on a graduating student resume.

The possible reason for all these patterns is the knowledge of how well student understand jumbled situation and solve it with his wisdom and knowledge he acquired. To make their resume a better model, to know the level of challenges and innovation he/she implemented and most importantly the prospect of the real world is required. For that, this event provided a platform for students to show case their talent.

DRIVE DYNAMOS helps students by providing a simulated placement experience, including aptitude tests, technical rounds, and interviews. It boosts their confidence, improves time management, and offers feedback from experts. Students gain industry-specific exposure, refine their skills, and increase their chances of success in real placement drives, while also networking with peers and potential employers.

Winners of the Event

Based on the scores obtained from the JURY members, the scores were tabulated, and three cash prize winners are finalized. The total cash prize allotted to "DRIVE DYNAMOS" is 1500 and an online internship is provided.

The participants other than the winners listed above are conferred with participation certificates, the students from other colleges were issued with hard copies of certificates through proper channel designed by the organizers.
