### Additional learning leading to UG Degree with Honours /Minor in Engineering

#### Vision:

To empower academically gifted students with both deep disciplinary knowledge and interdisciplinary skills so that they excel in higher education and future careers in engineering & technology aligned with their individual interest

#### Mission:

A learning environment that fosters academic excellence and career readiness for academically gifted students in engineering and technology is achieved by:

- nurturing their individual passions and talents through personalized learning pathways.
- providing a curriculum that integrates both deep disciplinary knowledge and interdisciplinary skills.

#### Objectives / Functions:

The objectives combine the specific strengths of both Honours and Minors programs to provide a comprehensive approach to achieving the overall vision and mission.

- i Nurture individual passions and interests within engineering and technology, offering opportunities for customized learning pathways.
- ii Bridge the gap between academia and industry theory by enhancing the T-shaped skills of the graduates through additional learning facility
- iii Cultivate interdisciplinary understanding and collaboration skills, equipping students to thrive in complex and diverse professional environments.
